Full Consultation Profile and Photo Profiles

A full profile takes about 90 minutes. Then after the initial consultation we work on the photos and information which takes about 2 days to prepare the report.

Each binder contains:

- Basic observation profile report. .
- The 5 trait area summary.
- Mood swing observation and photo illustrations.
- Photos for your own examination to compare using my book.
- Career opportunities suited to their traits and gifts. 80% and above
- All Photos used to measure traits, with notes
- Reports sheets and charts
- CD with photos and documents for personal records
- A signed personal copy of the book "FACE READING".

Please inform us of any cosmetic or dental procedures which has altered your natural look of your face to make allowance for this. I.e Nose, eyes, chin etc.

Partner Matching

We can also tell you who would be your ideal partner, what traits to look for to insure a more ideal match, why possible challenges and conflicts occur.

PHOTOS

Photos used for compiling your profile report are taken showing both sides of the face and the front of the face. All photos should show clearly the full forehead area and the ears as shown by the examples presented on this page. For people sending in photos for a photo profile without personal consultation, you should send in (3 shown below left) photos with the head looking directly ahead not tilting the face, up or down, or leaning to one side. Please make sure you do not wear glasses, hats or excess make up, or hair covering the face. The examples shown here are ideal.

Full One-To-One Consultation Profile

Single Profile	£160
Couple	£290

Photo profiles

Single Photo Profile	£60
Couple (Matching)	£100
